Kanika Garden, Rajpura, Punjab

Junior UI/UX Designer
ADI Group

Apr 2017 – Jan 2021

Phase-8B Mohali Punjab

Key Skills

Design & User Experience

- UI/UX Design for Web & Mobile Apps
- High-Fidelity Prototypes & Wireframes (Figma, Adobe XD, Sketch)
- User Research & Journey Mapping
- Design Thinking & User-Centered Design
- Interaction Design & Microinteractions
- Design Systems & Atomic Design Principles
- Accessibility (WCAG 2.1), Usability Testing
- Responsive & Mobile-First Design

Front-End Development

- HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript
- React.js, Vue.js (optional)
- Tailwind CSS, Bootstrap, Material UI
- Git, GitHub/GitLab/Bitbucket
- Performance Optimization & SEO
- Modular, Component-Based Development

Project & Collaboration Tools

- Agile / Scrum Workflows
- Jira, Trello, Notion
- Version Control & CI/CD Pipelines
- VS Code, Chrome DevTools, Postman
- Cross-Functional Collaboration with Product, Engineering & QA

Roles & Responsibilities

Design & Strategy

- Lead end-to-end product design lifecycle — from research, ideation, wireframing, prototyping, to final UI.
- Define and implement scalable design systems that ensure consistency and flexibility across products.
- Collaborate with stakeholders and product managers to align business goals with user needs.
- Conduct user research, usability tests, A/B testing, and data-driven design improvements.

Front-End Implementation

- Translate pixel-perfect UI designs into responsive front-end code using HTML, CSS, JavaScript, and frameworks like React & Vue JS interactive UIs.
- Optimize UI for performance, accessibility, and cross-browser compatibility.
- Implement reusable components and manage front-end architecture using component libraries and design tokens.

Roles & Responsibilities

Team Collaboration & Leadership

- Mentor junior designers and developers, conduct design reviews and provide constructive feedback.
- Work closely with developers, QA, and DevOps to ensure a smooth design-to-code handoff.
- Participate in sprint planning, standups, retrospectives, and product demos as part of Agile delivery.
- Advocate for design best practices and user-centric approaches across departments.

Analytics & Continuous Improvement

- Use analytics tools (e.g., Hotjar, Google Analytics) to gather behavioral data for UX improvements.
- Analyze feedback and usage data to iterate on features and boost user engagement.
- Present design solutions and improvements backed by metrics and qualitative data.
